

CONCEPT WG

REF.NO. 2C39900ZPE

Hot forged light alloy HMS carabiner with screwgate, conceived for use in trad climbing, sport climbing and alpinism in general.

Main features:

- especially recommended for use with belay devices;
- ample inside space for use with the Munter hitch and for rope maneuvers on the belay station;
- emphasized double T beam construction, for an optimal weight / strength ratio;
- light and shaped, for a better grip;
- catch-free clean nose to avoid snagging when clipping and unclipping.

TECHNICAL FEATURES

Sizes 105 x 73 mm	 23 kN	 12 kN	 7 kN	 80 g	 21 mm
